

I, Sina Mirzaeifard, the resident and owner of the apt# 2105 in Evolo 2 building, would like to express my positive opinion on the new project. I agree with the city regarding the new changes in the SPP project in their PPU. My opinion is that the buildings height must be limited to avoid any disturbance of the beautiful river-bridge view of the present residents of Evolo buildings. I really appreciate your kind consideration.

Thank you.
