

re: proposed 1800 René-Lévesque W. Residential Complex

As residents of the neighbourhood, we oppose the construction of the 44-metre and 60-metre residential towers proposed for the "land located in the quadrangle bounded by René-Lévesque W., Joseph-Manseau, the CP tracks and the Ernest-Cormier esplanade" (file 1062840037).

Any future construction on the site should not exceed present zoning limitations and respect the historical heritage of the area while retaining as much green space as possible.
