

Good day,

I would like to express my concerns regarding the proposal to build a new primary school at the corner of Boulevard de L'Île des Soeurs and Boulevard Rene Levesque.

Given the current burden on the traffic flow on [Boulevard](#) de L'Îles des Soeurs during the morning rush hour, I can only anticipate the additional pedestrian and vehicular traffic as a direct result of the school will contribute to making an already difficult traffic situation intolerable.

What plans, if any, have been envisioned to contend with the additional traffic?

Sincerely,
Robert J. Greer
