

LET'S FILL UP ON NEW ENERGIES

HOW CAN WE COMBAT CLIMATE CHANGES CAUSED BY GREENHOUSE GAS (GHG) EMISSIONS?

3/4

of the population of developed countries live in cities. Reducing GHG emissions involves reducing consumption of fossil fuels

At the request of concerned citizens, the mayor of Montréal announced, on June 30, the holding of a major consultation on the subject

THE MANDATE GIVEN TO THE OCPM
« Consult on concrete, ambitious and achievable solutions to reduce Montréal's dependence on fossil fuels. »

FOSSIL FUELS IN MONTRÉAL

GASOLINE

DIESEL

HEATING OIL

CHARCOAL

NATURAL GAS

PROPANE

Peel

WHAT IS COP21?

THE 21ST UNITED NATIONS CONFERENCE ON CLIMATE CHANGE WILL BE HELD FROM NOV. 30 TO DEC. 11 IN PARIS. 196 SIGNATORIES WILL NEGOTIATE A UNIVERSAL AGREEMENT ON THE FIGHT AGAINST CLIMATE CHANGE.

MONTRÉAL'S GOAL

To reduce our GHG emissions by 30% by **2020** below the 1990 level

ONLINE CONSULTATION

LET'S PUT OUR HEADS TOGETHER TO FIND WAYS OF REDUCING OUR CONSUMPTION OF FOSSIL FUELS.

Enter your suggestions before November 21 to contribute to the summary of citizens' ideas that will be presented to the mayor for COP21. The online consultation will continue until the end of public activities in March 2016.
