

FORMULAIRE POUR LE DÉPÔT D'UNE OPINION ÉCRITE

- Faut-il améliorer l'accès au canal de Lachine? Si oui, à quel endroit?

There are sections of the canal where walking and bike paths merge, creating unsafe situations. Also, when heading east on the north side of the canal, we eventually hit a dead end and must walk up to St-Ambroise street to continue in that direction. Overall the canal needs a face lift.

- Faut-il donner priorité à l'aménagement et à la mise à niveau des parcs?

Yes, parks are important for the beauty of our towns. They must be well maintained and there must be more of them.

- Est-ce que le verdissement (la plantation d'arbres) devrait être une priorité dans les PDUES?

Yes, trees are good for the environment and are beautiful. More community gardens would also be nice.

- Faut-il mettre en valeur la patrimoine industriel et l'histoire des quartiers? Si oui, comment?

I love walking through the streets and seeing all the old factories. It transports me to an imagination of a distant past when people actually went to work there. I also wonder what their usefulness is, especially the massive one on the corner of St-Ambroise and St-Remi. I suppose it eventually needs to be torn down or turned into a museum people can visit.

- Quels types de commerces aimeriez-vous voir s'installer dans votre quartier?

Would be nice to have some small fruiteries in St-Henri Ouest. The Atwater market and the IGA seem to be the only places selling produce but there isn't anything in the Ouest.

- Faut-il permettre des immeubles plus élevés? Si oui, à quel endroit?

No, I've lived in neighbourhoods with very tall buildings, and it really takes away from the beauty of the area.
