

I am writing to express my strong support for the good of the natural habitat and health of all Montrealers. Keep l'Anse à l'Orme as a space where plants and animals can live and breed. The environment of the Island of Montreal will benefit from this by providing cleaner air and by not contributing to the warming of the immediate environment. Do not build on or develop this land!

I have read and endorse Dr. Richard Gregson's brief to this effect.
