Madame Sylvia Matte

I am giving my opinion as a member of Project St-Charles and as a person that lived in Pointe-Saint-Charles.

Because it is important to me that I move back into Point-Saint-Charles so I can be close to my family. I can't afford the present rent; it keeps going up every year. It is affecting my quality of life, I am only on welfare. It is too hard to get a job at my age (56). Once I have paid a high bill of hydro, I barely have enough to eat and cloth myself and pay medication not covered by welfare. I really need and appreciate your backing up of a lower rent which would help me to be able to live adequately.
