

Montreal provides beautiful cycling trails that excite many of our citizens, and visitors to our city.

I first learned about our bike network thirty years ago from friends in Hamilton, Ontario who participated in Montreal's Tour De L'ile! My own experience riding the trails has made me grateful for the work of Claire Morissette and others that have gone before me. In gratitude for their efforts I am expressing my support for the Parc Turcot, and the Dalle Parc passerelle. This proposed link from NDG to the Sud Ouest will enrich the lives of people in both communities.

Connecting the Dalle Parc to the Bande Verte will further engage the communities of Westmount and Montreal Ouest; giving us a four-way win!

My friends share my enthusiasm for the Parc Turcot project, and they want to know about its progress. Today I can tell them that I spoke for our interest.

I hope that soon I can say that both Montreal and the Province remain committed to the Parc Turcot.
